Auto Accidents Claim More
Lives Than Were Lost
In World War.

24,000 VICTIMS IN
1925, SAYS REPORT

Secretary Hoover Devising
Methods of Restoring
Pre-War Safety

Washington, Feb. 23.—Automobile
accidents have cost the United States
123,500 lives since 1917—more than
were killed in the World war—accord-
ing to statistics made public today by
the Department of Commerce.

Of the 1925 death list were 24,000
victims, 2.5 per cent greater than in
1924. Unless emergency measures
are taken to check a menace that has
grown annually since the automobile
became the principal means of trans-
portation this year's fatalities will
show another increase.

The automobile fatalities made up
about 15 per cent of the total deaths
due to accidents of all kinds in 1925.
There were about five deaths to
every 4,000 registered automobiles.

Details of motor accidents for the
past few years were issued as a re-
port to the National Street and High-
way conference which will meet in
Washington March 23, 24 and 25.

Secretary of Commerce Hoover has
under consideration a number of
plans to bring to public attention the
appalling losses faced by the country
as the result of what are considered
partially preventable accidents.

Devising Safety Methods
Hoover has a number of experts at
work in co-operation with committees
of the conference to devise methods
of restoring pre-war safety on auto-
mobile streets and highways.

Responsibility for a part of the fail-
ture in traffic law enforcement is
laid at the door of municipal and
state courts through their failure to
assess heavy jail sentences against
flagrantly violators.

Government officials, however, con-
sider the present laws entirely inad-
equate to meet what was termed by
a "national emergency" included in
the suggested legislative remedies
are the following:

1.—State laws providing peniten-
tial sentences to persons convicted of
driving while intoxicated and for
flagrantly reckless driving.

2.—Uniformity of state and munic-
ipal traffic laws to eliminate wide-
spread confusion among motorists
arising from complexity and varia-
tions in regulations.

3.—Establishment of a federal com-
mission for the preparation of model
traffic laws.

4.—Compulsory jail sentences for
persons convicted of traffic violations
which endanger life.

**Son Believed Dead
Surprises Parents
By Returning Home**

Lisbon, Feb. 23.—Believing his
parents were dead, James Adams
Jr., who left Lisbon 14 years ago
to join the United States
navy, returned home suddenly
and gave his parents a pleasant
surprise. The parents had be-
lieved their son dead.

Trace of Adams as lost when
he was transferred from one bat-
tle-ship to another and no record
made of the transfer in the
Navy department at Washington.

Adams has traveled all over
the world and since his discharge
from the navy he took employ-
ment with a Philadelphia concern
as a road salesman. Recently he
learned that his parents were
still living and without writing
them where he was located, he
returned quickly to again join his
father and mother.

**HARRIS' CONDITION
REMAINS CRITICAL**

Leonard E. Harris, of the Depo-
sit, who was injured when his auto
was struck by a train at the Mill st.
crossing Saturday afternoon, was still
in a critical condition today.

He is confined to the Central Clinic
hospital where physicians believe he
will recover. He spent a restless night
Monday night, and it was said at the
hospital today his condition is about
the same as it was Monday.

Harris is suffering from a concus-
sion of the brain, sustained when he
was knocked clear of the machine as
he drove into the path of the train.

**5 Children Hurt In
Coasting Accidents**

Cleveland, Feb. 23.—With the re-
turn of cold weather and the freezing
of ice on sidewalks and sled tracks,
three boys and two girls were in hos-
pitals today as the result of coasting
accidents. News are seriously injured.

Two victims of skidding automobile
also were in hospitals.

Probe Of Girls' Use By Dry Department To Start Wednesday

Governor Donahey To Preside At Hearings
Behind Closed Doors; Findings Will
Be Made Public Later, He Says.

Columbus, Feb. 23.—Governor Don-
ahey today announced that he will
start Wednesday afternoon his inves-
tigation into charges that women were
employed by the state prohibition de-
partment to lure men into violating
dry laws.

Hearings, to be held at the offices
of State Prohibition Commissioner
McDonald, will be behind closed
doors.

The governor, who is to preside,
stated that a complete transcript of
the testimony, together with his find-
ings, will be made public at the ter-
mination of the probe.

During the investigation, the gov-
ernor said, consideration will be
given to complaints relating to a num-
ber of recent raids by officials and
agents of the state prohibition de-
partment, including those made upon
the home of S. E. Stephenson, Jack-
son, while 10 invited guests were pre-
sent, and upon homes of a number of
Catholic citizens of London, home-
town of Attorney General Crabbe.

The governor's investigation, it was
announced, will open with question-
ing of witnesses relative to the charge
that Mrs. Ruth Farrell, Columbus,

was employed by the state prohibi-
tion department recently in an effort
to lure Marshal H. E. Nutt, West-
erville, to violate dry laws by furnish-
ing her with liquor.

These witnesses it was announced
at the governor's office include:
Nutt, Mrs. Farrell, S. A. Probst, as-
sistant prohibition commissioner; L. G.
Whitney, city manager of Westerville;
J. B. Coulter and Carl Seitzer, state
dry agents and Constable Meredith
Brake, Westerville. Probst, Coulter,
Seitzer and Brake it was claimed took
part in the Westerville raid.

The Quaker City Fox Farm Co., Inc.,
of Salem, was incorporated at Colum-
bus today by five Salem men, at a ca-
pitalization of \$100,000.

The five incorporators are Elmer
Kenneigh, Albert V. Kenneigh, R. E.
Slagle, J. P. Birkheimer, and Atty.
Cecil K. Scott. The latter is the legal
adviser of the new company and han-
dled the incorporation.

Purposes of the new concern are
to breed and sell silver foxes. Stock-
holders are to meet soon to elect of-
ficers and set the business of the
company under way.

**MILLCENT'S COUNT
MAY BE DEPORTED**

Salm Without Visible Means
Of Support, Congress-
man Claims.

Washington, Feb. 23.—Count Salm
Von Hoogstraeten, who came to the
United States ostensibly to visit his
estranged wife Mrs. Millicent Rogers,
and see their infant son, may not so-
journ long on American shores, it was
hinted today on a few hours after the
count arrived in Washington, as he
expressed his "for a vacation."

Rep. F. H. Laguardia (R) of New
York declared today he has under
consideration a formal request to the
Department of Labor to start depor-
tation proceedings against the count
on the ground that he has "no visible
means of support" and is likely to be-
come a public charge.

It was Laguardia who officially
called the attention of the immigra-
tion authorities to the fact that he
Earl of Craven was in his country
while they were holding the Count-
ess of Cathcart in the detention pen
at Ellis Island.

Referring to Palm Beach dispatch-
es that Count Salm's bills at Palm
Beach were paid by William Anhalt,
a New Yorker, Rep. Laguardia said
it was questionable whether the
count's position in this country did
not bring him within the purview of
the immigration law. Under this law
aliens who have "no visible means
of support" may be sent back to their
native shores.

"Certainly," said Laguardia, "the
count is not supporting his wife and
child."

Shoots Himself

Cleveland, Feb. 23.—John Ibborno,
47, is dead today, a suicide. While
his wife and four children slept in
an adjoining room, Ibborno left his
bed, procured a gun, and fired a bul-
let through his heart. His health
prompted the act, police said.

**DISPATCH GUARDS
TO MINING CENTER;
OUTBREAK FEARED**

Protection Is Offered As
Nine Non-Union Mines
Prepare to Open

Evansville, Ind., Feb. 23.—Three
companies of national guardmen
from a trio of Indiana cities under
command of Major Louden Harriman,
executive office of the Seventy-sixth
Indian infantry brigade, arrived here
early today prepared to cope with
the mine situation if local officials
find themselves unable to handle it.

The troops were dispatched here
during the night by Adjutant General
William H. Kershner as a precau-
tionary measure to avoid trouble, ad-
mittedly expected with the re-opening
of the non-union mines in the southern
Indiana coal fields, nearly all of which
have been closed since the series of
sporadic riots a week ago.

The guard units included a full
chemical warfare company of Indian-
apolis and Greensburg detachments
and an airplane squad from the na-
tional guard headquarters at Kokoi-
mo, the airman to act as scouts.

The two infantry units carried a
full supply of chemical weapons and
rifles.

Six other companies were ready,
within a radius of 25 miles of the coal
fields, for instant service in the
event any emergency arose.

Ten mines in Vanderburgh and War-
rick counties were operating in a non-
union basis before the recent riots
that followed efforts of union men to
unionize the mines, resulting in the
closing of all except two of the mines.
These two—the Crescent and Sun-
nyside mines on the outskirts of Evans-
ville—were able to continue under
protection of heavily armed sheriffs,
deputies and police.

Line of the ten non-union mines
planned to be operating in full swing
this morning and it was in anticipa-
tion of trouble incident to the resump-
tion of work that the troops were sent.

BLASPHEMY TRIAL DRAWS RADICALS

Bimba, Lecturer, Is Barred
From Boston Halls;
Facing Trial

Brookton, Mass., Feb. 23.—Interest
closely approaching that of the fa-
mous Scopes trial in Tennessee today
centered in the opening here to-
morrow of the trial of Anthony Bimba,
Brooklyn, N. Y., editor and lecturer,
charged with blasphemy and sedition.

Officials of the International De-
fense Society, "free speech" advo-
cates, liberals and so-called radicals
were arriving for the opening of the
case which will test the ancient Pur-
itan law enacted in 1637.

Dudley Field Malone, one of the
counsel in the Scopes case, it is
stated, will assist the Bimba defense.

Plymouth county district court will
be the scene of the "free speech"
drama. The court room will accom-
modate only 100 spectators and extra
police have been detailed to keep
order.

Since his ejection from Pittsfield
last week, Bimba has kept out of the
limelight and did not appear in Bos-
ton to emulate Scott Nearing, lectur-
er, who spoke on recognition of
Soviet Russia from a snow bank after
being denied the use of Paine Memori-
al hall, Boston. All Boston has
well as the large halls of Brookton,
Worcester and other cities have bar-
red Bimba and his supporters.

**Haney Resigns Post
On Shipping Board**

Washington, Feb. 23.—Bert E. Han-
ey, member of the United States ship-
ping board from Oregon, sent his
resignation to the White House to-
day.

**Yellow Cab Office
Is Robbed of \$8,000**

New York, Feb. 23.—Three bandits
obtained \$8,000 in cash today when
they held up the executive offices of
the Yellow Taxicab company, intimidat-
ing the cashier and six chauffeurs
as they plundered the safe.

One of the chauffeurs attempted
to stop the bandits as they walked to
their waiting car. He was knocked
senseless.

**THREAT RECEIVED
BY FAMOUS TENOR**

Gigli Cancels Engagement
In Detroit and Leaves
City Hurriedly

Detroit, Feb. 23.—Upset by an anony-
mous threat of death as the penalty
for singing here, according to Mrs.
Isabel Hurst, his local manager,
Beniamino Gigli, famous Italian tenor
today cancelled a concert recital
which he was to have presented here
tonight and hastily left for Chicago
with his whole party.

"If Gigli wants to adorn a slab in
the morgue, let him try to sing in De-
troit," a note Mrs. Hurst said she re-
ceived reads: "We will cut this can-
ary's throat."

(Signed)
"True Friends of Italy."

Mrs. Hurst told police of the threat
and a personal guard of detectives
met the tenor at the station and es-
corted him to a local hotel.

Mrs. Hurst issued a statement
which she said the famous tenor left
behind in which Gigli said the nerv-
ous reaction would prevent him doing
a truly artistic performance.

**Arrest Suspects
In Murder Case**

Canton, Feb. 23.—Two boys who
gave the names of John and Joe Riley,
18 and 20 years respectively, are held
by Massillon police on suspicion that
they are the Lyons brothers, wanted
for the murder of a Cleveland detec-
tive.

**Vaudeville, Florida Boosters
Make Glowing Offers To Vera**

New York, Feb. 23.—Indications
pointed today to a complete reversal
of the government's attitude toward
the Countess of Cathcart and her
moral turpitude, and in a way ex-
plains the unexpected decision to an-
nounce her to this country on \$500 ba-
nishment. It is believed that the govern-
ment will accept the statement of Countess
Vera's Africa, where she confesses
she lived a year with Earl Craven,
moral turpitude is not a crime.

The countess was to have a hear-
ing today before a federal judge but
it was postponed a week. It is now
deemed probable here that there will
be a re-hearing before three immigra-
tion inspectors at Ellis Island and the
countess will be admitted without re-
striction.

In the meantime the countess is a
busy woman. Today she consulted
with her New York literary advisors
and it is likely her play "Ashes" will
be produced here before spring and
that she may possibly play the lead-
ing role.

She spent the morning in confer-
ences with agents fetching almost as
many propositions to her as were of-
fered Red Grange.

Night clubs fairly ache to pay her
\$2,000 a week to be hostess; vaude-
ville will let her write her own pre-
face to a dramatic sketch of her
own or anybody else's authorship,
and Florida real estate developers
have burned the wires with glowing
offers, hints of fat cash advances, an
exclusive villa—almost anything in
or out of reason.

The countess is taking it all as a
half joke.

SNIPER EMULATES WESTERN MANIAC; SHOOT DOWN FOUR

One of New York Victims
Is Dead; All Are Shot
From Ambush.

New York, Feb. 23.—New York to-
day developed a "mad sniper" and
his toll thus far is one dead and
three wounded. All four victims were
shot down in the streets apparently
without cause. No one saw the as-
sailant.

Police believe that some person
reading of the Omaha mad sniper
who killed two and fired on scores, is
emulating the western maniac.

"Happy Jimmy" Barnstony, 35, was
shot and killed. His companion, Rob-
ert Tannon, 28, was shot in the back.
Two other men were brought to hos-
pitals after being mysteriously shot.

All the shootings took place on the
East Side. Detectives believe that
some madman started uptown and
continued down First and Second av-
enue, taking pot shots as he went.

No witnesses were found who had
heard the sound of firearms at the
time the men fell and it is believed
that, like the Omaha killer, New
York's "mad sniper" has mounted a
silencer on his weapon.

Just as detectives were investigat-
ing the third mysterious shooting
Frank Carr, 29, a subway employee,
stumbled into Bellevue hospital with
two bullets in his back and side. He
said somebody had fired out of the
darkness and he was only aware of
the flashes. He is not expected to
live.

Omaha, Neb., Feb. 23.—Dr. F. S.
Lovely, who examined Frank Carter,
Omaha's confessed phantom killer,
this morning said the man was a vic-
tim of paresis, which is the last stage
of a social disease, Carter would not
live long and will go insane before he
dies, said Dr. Lovely.

DISMISS CANTON CHIEF OF POLICE

Canton, Feb. 23.—Chief of Police

by an order signed by Safety Direc-
tor James A. Rice, and Mayor S. M.
Swarts.

Lengel is charged with incom-
petency, inefficiency and gross neglect
of duty.

Soviets Celebrate Red Army Birthday

Moscow, Feb. 23.—Unmindful of
disarmament conferences, past, pres-
ent or future, the soviet union today
is celebrating the "day of the Red
army" the eighth anniversary of its
founding.

According to an official statement
of the Communist party, the Red
army now consists of about 600,000
active soldiers. Bolsheviks unite in
denying the estimate of 1,030,000 fix-
ed by British army experts.

Surgeon Completes Operation As Fire Destroys Hospital

New York, Feb. 23.—Fire from
an overheated furnace today de-
stroyed the Bay Ridge sanitarium
in Brooklyn, nearly 50 patients
and staff making their escape
from the burning building with
the aid of firemen.

A patient was on the operating
table when the fire was discovered
but the surgeon continued calm-
ly with the operation and when
it was finished removed the man
to the street with the assistance
of his nurses.

Nesbitt Issues Statement
Of His Movements Be-
fore the Crime

Troy, O., Feb. 23.—Baffled at every
turn, with no tangible clue to help
him in the solution of probably the
most atrocious crime in the history
of the Miami valley, police and de-
tectives today were continuing their
investigation into the murder of Mrs.
Frances Drake Nesbitt, 26 year old
wife of Jacob Nesbitt, which was dis-
covered by the husband upon his re-
turn from a business trip to Dayton
last Friday night.

Coroner G. J. Hance announced that
the formal inquest will be held today
with the general public, including
newspapermen, excluded. Nesbitt will
be the chief witness at the inquiry,
a thorough grilling will be given the
numerous witnesses summoned in an
effort to reveal something tangible to
help them in their search for the slay-
er.

Prompted by the many rumors that
have been floating in connection with
the case, some of them intimating
that the husband himself may know
more about the crime than he has al-
ready told, Nesbitt issued a full and
detailed statement of his movements
before and after the crime.

The issuance of Nesbitt's came as
the first positive action in a day of
uncertainty.

All In Quandary
County and city officials, as well
as the investigating detectives ap-
peared to be in a quandary, having
run down many clues and rumors with-
out tangible results, according to their
reports.

After the first statement was given
out, the officials remained in confer-
ence with Attorney Shipman, coun-
sel for Nesbitt, until a late hour last
night.

It appears, it is said, that the evi-
dence obtained thus far is incon-
clusive in either establishing the guilt
of any certain person or revealing
the identity of the murderer.

The investigation now only spread
throughout this city in an effort to
gather any information concerning the
crime, but also extended to the sur-
rounding territory as all manner of re-
ports were examined.

Among the many rumors that offi-
cials proved groundless today was
that a laundry man had visited the
Nesbitt home Friday morning about
9 o'clock and that Mrs. Nesbitt had
called to him, giving instructions con-
cerning the laundry. It was learned
that the laundry man had called at
the house Thursday instead of Fri-
day.

Another story that was disproved
related that a milkman had noticed
signs of life in the Nesbitt home Fri-
day. Investigation disclosed that milk
was not delivered there, as the Nes-
bitts had purchased it as they
needed it.

Atlanta Society In Furore
As Elopement Reveals
Artist's Identity

Atlanta, Ga., Feb. 23.—Atlanta so-
ciety was in a furore today at the de-
nouement of the whirlwind romance
and elopement of Miss Virginia Hol-
lingsworth, senior at Agnes Scott col-
lege, and the daughter of a distin-
guished old Georgia family, with "Noel
Dupre" who posed as a "French
diplomatic official."

Dupre today was back at his home
in Anderson, S. C., and Miss Hollings-
worth was at the home of her parents
in Dawson, Ga. A suit to annul the
marriage was being prepared by at-
torneys for Miss Hollingsworth's fam-
ily.

Dupre, who is said to have styled
himself a French artist and the sec-
retary to the French consulate in
Honolulu, and who regaled new-
found friends in Atlanta with deligh-
tful stories of the colorful life of the
Bohemians in Egypt and India, eloped
with the beautiful college girl three
days after they met here.

They went to Chattanooga, Tenn.,
where a Gretta Green marriage was
performed. They returned to Atlanta,
enroute to Honolulu, where Dupre said
he was going to resume his duties
with the French diplomatic service.

When Dupre was seized with sudden
illness, letters found in his baggage at
a hospital here, established his iden-
tity as Noel Cobb, a former student at
South Carolina university, and Van-
derbilt university, who has never been
outside of the United States, despite
his appealing French-American ac-
cent.

COOLIDGE OPPOSES HUGE AIR FLEET

Washington, Feb. 23.—President
Coolidge is opposed to the construc-
tion of a great American air fleet be-
cause he believes that to do so would
encourage other nations to do like-
wise, and thus lend impetus to a new
armament race, he told callers at the
White House today.

The president believes that the
passage of legislation incorporating
the recommendations of the Morrow
board will remedy most of the short-
comings in the present air establish-
ment.

Canton, Feb. 23.—Chief of Police

tor James A. Rice, and Mayor S. M.
Swarts.

petency, inefficiency and gross neglect

INCOME TAX RETURNS

The final date for filing income tax returns to the federal government is March 15, but it will be a convenience both to the taxpayers and to internal revenue collectors if such returns are filed promptly. Blanks for this purpose have been sent out by the internal revenue bureau officials to all classes of taxpayers whose status seems to have been definitely determined by congress although there is still further delay in passage of the act of 1926 because of matters in controversy which for the most part affect the larger incomes. Because of the delay beyond the fixed deadline date of Feb. 10, the treasury department has deemed it advisable to send out blanks to comply with the old revenue laws to all individual taxpayers whose net incomes are below \$3500 with an explanatory note to make the old forms meet the conditions of the pending act which assuredly will have been approved before tax filing date. At the same time an effort is being made to have other classes of taxpayers prepare their returns ready for filing so that there may not be a last minute confusion to add to the difficulties of adjustment later. Clerks and deputies of the internal revenue office have been assigned to the various offices to aid taxpayers in making out their returns properly and this service will be advanced if people will act promptly.

Under the increased exemption granted to individual taxpayers it has been estimated by the treasury department that between two and three millions of people will have been freed from the necessity of making returns. Under the new law only those single persons having net income of \$1500 and more, and married persons having net incomes of \$3500 and more are required to make report and pay taxes. The exemption for each dependent remains at \$100 and otherwise the return will be the same as it was last year.

THE PRIMARY TEACHER

John Kaiser of Marietta, a member of the board of trustees of Ohio State university, argued that teachers of the primary grades in the public schools ought to be paid higher salaries than teachers of any other grades. He says that it is in charge of the primary grades that the best prepared and most experienced teachers should be placed, because they deal with the child in his most formative period, give him his educational start for good or ill. For this reason, he said, the promotion of teachers should be from the higher grades to the lower. It is an interesting contention.

There is no doubt of the great importance of the primary teacher. What Mr. Kaiser says of her great influence over the child's future life is all true. This influence, however, depends more upon her personality, her patience and her sympathetic understanding than upon her scholarship. The great primary teacher may not be a learned person but she must have fine human qualities. Probably there are not many great scholars who would make great primary teachers. With their learning they would not be content to spend their professional lives in contact with the minds of little children. And yet thorough training, advanced ability, specialized talent are what command the higher positions and the better salaries in teaching as in other vocations. The good primary teacher, with her personality, her patience, her sympathetic understanding and her high ideals, performs a service of incalculable value and ought to be well paid for it and very highly respected. But the good teacher of the advanced grades has these fine qualities too and needs something more in the way of educational training and outlook.

The coal strike was settled by the greatest official of all, public opinion. Now all that the president need do is to actively get behind his recommendation for legislation that will enable public opinion to be more expressive more promptly in the future. Canton News.

JOHN P. HILL

Congressman John Philip Hill, of Maryland, wet, has accepted the challenge of Congressman Thomas L. Blanton, dry, to get him drunk on Baltimore beer. Blanton claimed in congress that Baltimore was "wide open," and Hill countered by offering to drink all the beer there that Blanton would buy. If Hill gets drunk he agrees to give \$100 to the Anti-Saloon League, otherwise Blanton must donate \$100 to a wet organization.

The coal strike was settled by the greatest official of all, public opinion. Now all that the president need do is to actively get behind his recommendation for legislation that will enable public opinion to be more expressive more promptly in the future. Canton News.

Questions And Answers

By FREDERIC J. HASKIN

Q. Is Wallace Nutting alive? M. L. A. The Rev. Wallace Nutting is still living.

Q. What is the story of the exportation of a long time between drinks? R. E. L.

A. This saying, "See the governor of North Carolina to the governor of South Carolina," concerns the governor of South Carolina who required the return of a fugitive slave. The governor of North Carolina hesitated because of powerful friends of the fugitive. He gave a banquet to his official brother. The governor of South Carolina in a speech demanded the return of the slave and ended with "what do you say?" The governor of North Carolina replied as above.

Q. What is intuition? A. L. Y.

A. Intuition is applied to direct or immediate knowing. Whether mystical, perceptual, intellectual or moral; and is, in general, contrasted with speculative, reflective, or mediated knowing.

Q. Were the mound builders the ancestors of the Indians? G. O. J.

A. The mound builders are generally believed to have been a race separate and distinct from the Indians, since there are differences in the formations of their skulls.

Q. Why does coal turn to clinkers? J. R. W.

A. Clinkers are caused from the fire getting too hot. The only way to overcome this is to carry a deep fire bed and not allow the fire to get too hot. Carry large fires at low temperature instead of small fire at high temperature and regulate the temperature by reducing the draft.

Q. What is the difference between the Marine insurance terms "With Particular Average" and "Free from Particular Average"? H. E.

A. Marine insurance is determined on an 80 per cent average loss. It exempts an insurance company from the payment of any partial loss or particular average insurance which exceeds a certain per cent of the value of the property. The particular average clause is sometimes applied to the value of each parcel or package or series of parcels and packages according to invoice numbers. The difference between "with particular average" and "free from particular average" is that the former has a particular average and the latter has not.

Q. How old was Marie Antoinette at the time of her death? H. S.

A. She was almost 48 years old. She was imprisoned for more than a year before her execution.

Q. How much spraying material would it take to spray one ton of tomatoes? C. W. D.

A. The Bureau of Plant Industry says that allowing ten tons of tomatoes to the acre, it will take approximately 20 to 40 gallons of Bordeaux.

WHO CAN AFFORD TO BUY CHEAP FURNITURE?

We say: "Only the rich." But the rich don't buy cheap things. They leave cheap buying for those who can't afford it, for those who have the idea that they can get something for nothing. Nobody ever got something for nothing. Nobody ever will. Business isn't done that way.

To Save, One Should Buy for Long Wear and Dependable Service—Quality Does Count!

Throughout our entire store you will find only dependable merchandise that will give full value and lasting service. Merchandise that makes good or we will.

Quality not only counts, but pays. It is far more economical in the end. Our quality furniture, rugs and ranges will not only save you money but will give that satisfaction which comes of lasting service and full value received.

Radio In Wilds Of Congo Finds Woman's Long Lost Brother

Memphis, Tenn., Feb. 23.—A remarkable story of the reunion of an American woman, living in San Francisco with her brother, from whom she separated in Copenhagen a quarter of a century ago, now living in the wilds of the African Congo—effected by means of amateur radio enthusiasts—has come to light here.

Mrs. Lydia Nelson read in a newspaper that Radio Station OA-42 had been getting wonderful results broadcast, having been heard by amateurs in Europe and various cities in America. She wrote the operator of the station, J. L. Street, at Capetown and asked that a message be broadcast in search of her brother. Sigfred Yenson, who she heard, had gone to the African Congo.

Street complied with her request, and out of the jungle came a message from Yenson.

An amateur enthusiast in Memphis, sitting long after midnight over his powerful receiving set, picked up this message from the Capetown station.

Sigfred Yenson has been located in the Congo. Please notify Mrs. Lydia Nelson, 1133 McAllister St. San Francisco, that he is writing to her.

"My brother must have picked up my message on a radio set at his home in the wilds of the Congo," Mrs. Nelson wrote, gratefully to the Memphis amateur. "I can hardly wait until his letter comes."

SCHOOLS TO KEEP SAME TEXT BOOKS

Heads of Mahoning County Schools Averse To Making Change

Public school superintendents of Mahoning county, outside of the Youngstown district, at a meeting held recently in the office of Jerome Hull, Mahoning county school superintendent, at Youngstown, voted to retain the text books now in use for another five years. The motion to retain the present text books was made by R. W. Ling, head of Sebring's public schools, and seconded by W. Ritchey, of Coltsville.

Mr. Ling is of the opinion that the present text books are adequate for the needs of the school and that it would be of no great advantage to change the books at this time.

Plans were made to carry out changes recommended by the state inspector who recently inspected the high schools throughout the county, and thus give the county high schools a full class "A" rating.

Committees were appointed by County Superintendent Hull to revise the supplementary reading lists and work out supplementary helps in grammar and arithmetic for the seventh and eighth grades.

Britain Becoming Nation of Clerks, Says Business Man

London, Feb. 23.—Britain is in danger of becoming a nation of clerks, according to Lord Southwark, a well-known figure in the world of commerce here. His Lordship's content is supported by many other prominent Englishmen. Addressing the annual meeting of the British chambers of commerce at Bath, Lord Southwark declared the increasing tendency of the English state schools to turn out boys whose only qualifications were "clerking" and declared that the worship of the black coat among Englishmen had resulted in the market being flooded with clerks and unemployed, who have a smattering of all subjects but are masters of none.

"Businessmen are agreed," he said, "that the present English system of elementary education tended to produce and increase unduly the supply of clerical assistants."

"This craze to become a clerk has resulted in the market being flooded with clerks and unemployed, who have a smattering of all subjects but are masters of none."

Variety of News In Brief Form

New York, Feb. 23.—Two persons were killed and seven injured in motor car accidents within the last 24 hours.

New York, Feb. 23.—Ten race horses belonging to Charles Moore, including four two-year-olds still unnamed and six selling players, were burned to death in a fire which destroyed barns 11 and 12 at the Aqueduct racetrack. One of the horses was Pettifogger who two years ago won the Empire City derby.

Columbus, Feb. 23.—Offers of rewards for arrests and conviction of bank bandits were endorsed by over 150 bankers attending the mid-winter session here of members of the Ohio Bankers' association.

Columbus, Feb. 23.—Depart-

ment heads of the Ohio Farm Bureau Federation today will make addresses at the fifth annual session of the Ohio Livestock Co-operative association. Representatives of Co-operative Commission associations at Buffalo, Cleveland, Cincinnati and Pittsburgh also, are to talk.

Somewhat Different

At an aged divine, whose enunciation was none of the clearest, insisted upon using big words on every possible occasion. One day, after conducting a children's service, he was waited upon by a deputation of parents. "Our children," they complained, "inform us that you told them they should always be up to mischief. The puzzled cleric, sure of having said nothing of the sort, asked the parents to wait while he consulted his notes. Then it developed that what he had really said was that they should always be 'optimistic.'"

Daily Fashion Note

For the varied tasks that crowd one's day, nothing could be more serviceable than this frock in high lustrous tweed with satin trimming. The skirt has inverted plaits on either side of the front, and patch pockets of self-material are added for further decoration. The collar of satin has double tie-trimings, one on each side, and the other of satin. Narrow cuffs finish the long sleeves. Medium size requires 2 1/2 yards 54-inch material, with 3/4 yard 40-inch satin for trimming.

Patricia Review Printed Pattern 2843. Sizes 14 to 18 years, and 31 to 44 inches bust. Price 45 cents.

DEEP-SEATED RHEUMATIC PAINS

Quickly Yield to Powerful Penetrating Oil

Probably no affliction is more common or responsible for more intense suffering than rheumatism. Thousands of otherwise robust persons drag through a life of misery and agony.

Success Means More Hard Work to Talley, "Cinderella of Opera"

Success is only the beginning of hard work for Marion Talley, 19-year-old Kansas City, Mo., prodigy, upon whom flowers, telegrams and letters are pouring in from all parts of the country, following her extraordinary debut at the Metropolitan, New York, world's greatest opera house. The soprano is seen with some of the floral tributes in an intermission in the hours of practicing and study she has to do daily.

CAN'T LET DOWN BARS, SAYS FESS

Senator Asserts Americans
Can't Withhold Check
On Immigration

Alliance, Feb. 23.—United States Senator Simon D. Fess of Yellow Springs gave his approval to present restrictive immigration laws in an address here Sunday afternoon under the auspices of the Alliance Y. M. C. A. An audience of several thousand persons heard the address.

Senator Fess stated that it would be an impracticable impossibility for this country to let in all immigrants who may wish to enter the United States. He also gave a brief sketch of the workings of the immigration laws.

The speaker declared that France would be the loser by repudiating her debt to the United States and believes that the country could not afford to suffer such a loss to her international credit. Belief was expressed that an understanding would be reached between the United States and France. The meeting was the third to be held this winter under the direction of the Y. M. C. A. Music was furnished by a male chorus.

MEN FIGHT OVER WOMAN: ONE DEAD ANOTHER DYING

Cleveland, Feb. 23.—As the result of a deadly gun duel in old fashioned western style, John Lonero, 26, was dead here today, James Baroni, 42, dying in a hospital, and Tony Baroni, 21, son of the elder Baroni, was in jail on charges of carrying concealed weapons.

Police said the shooting was over a married woman, the wife of a friend of Baroni.

Young Baroni was not involved in the shooting. He came home, learned that Lonero had shot his father and without knowing Lonero was dead, got a gun and went in search of his father's slayer. Police arrested him.

According to eye witnesses Baroni opened fire on Lonero who fell with six bullet wounds in his body but managed to draw his own gun and shoot down Baroni before he died.

JUDGMENT

When thousands of people give approval to a bank's service over a long period of time, the judgment of the many is evidence that the service can be accepted as sound.

The First National Bank of Salem is patronized by over eight thousand people living in this city and vicinity. Salem has had the opportunity to judge of the FIRST NATIONAL'S service for 62 years, and when YOU select a banking connection, we invite you to consider the judgment of the thousands who have manifested their approval of this bank year after year.

The Old Glen White Track

These lines were composed and sung by Jos. C. Smith in memory of his wife, who departed this life August 17th, 1924.

I am thinking tonight, Maggie dear, of Glen White
And the bright happy days of our youth.
And the night that you told me, my bride you would be,
Then the world was all smiles for us both.
Then the day that I gave you the ring at the spring,
And said you were the one only girl.
You kissed me and said you have made me dear Joe,
The happiest girl in the world.

CHORUS

Then my memory turns back, to that old Glen White track.
And the brook that flowed close by your door;
In the evening we'd follow its course, you and I,
To the spring down below the old store.
There the young folks would gather at the close of each day,
And sing the most popular airs,
And the song that you sang for me, Maggie was,
I'll remember you, love, in my prayers.

Then we'd wander back up that old Glen White track
In the light of the coke oven glare;
Till we'd come to the store and we'd dance on the porch,
To a tune sung by everyone there.
We'd waltz and we'd schottische and dance zouzeann,
At the clock in the old store struck ten,
Then we'd depart for our homes with a promise
To meet next day at the spring in the glen.

CHORUS

On Sunday we'd stroll down that old Glen White track
To the famous Horse Shoe Bend;
And we'd wander 'mong flowers, in the tree of the shade,
With the caretaker who was our dear friend;
I remember when we told him, my bride you would be,
And he asked God to bless us that day;
When he gave you the armful of flowers and said,
I present you this little bouquet.

CHORUS

For forty-four years dear, you stood by my side
And shared all my troubles and cares;
And at night when we'd kneel by our bedside to pray,
We remembered each love in our prayers.
To me, Maggie dear, you never grew old,
You was always my pride and my joy,
To the day that you died, you was that same sweet bride,
That I held in my arms when a boy.

CHORUS

You have gone, Maggie dear, to meet with your sons,
Who will guide you up heaven's bright stairs,
There to greet your dear parents, who will welcome you there,
In answer to all of our prayers.
Oh, how lonesome I am since you've gone Maggie dear,
As I sit here tonight alone,
But we'll meet there dear heart,
And we'll never more part,
When I'm laid beside you in the tomb.

CHORUS

Glen White is a mining camp in Blair County, Pa., five miles west of Altoona. A switch two miles long branches off the main line of the Penna. R. R. at the toe of Horse shoe Bend, and is known to the natives as the Glen White Track.

WAREHOUSE FIRE IS INVESTIGATED

Cleveland, Feb. 23.—A thorough investigation into the cause of a \$10,000 fire which swept the warehouse of the Panoleum Products company, will be made immediately, according to Battalion Chief William Cernack today.

The fire started in a shed adjoining the building and the place was a roaring inferno when firemen arrived. Lives of firemen and police were endangered by exploding vats of grease and oil which shot flames a hundred feet into the air.

OHIO ICE CREAM MAKERS FAVOR FEWER FLAVORS

Columbus Feb. 23.—Announcement was made today by the Ohio Dairy Products association that E. H. Campbell of Salem had been selected as chairman and Ross Mendenhall of Akron as vice chairman of the district of the Ohio Association of Ice Cream Manufacturers, which embraces Stark, Mahoning, Summit, Columbiana and Richland counties.

Ice cream manufacturers of the state are working out plans for a reduction of the number of ice cream flavors which they will carry regularly in stock. About 20 flavors are now carried and it is proposed to reduce the number to six or seven, the list including vanilla, chocolate, strawberry, peach, maple nut and caramel. The other flavors will not be discontinued, they will be prepared as week end and holiday specialties and will be supplied on orders from customers. It has been found that more vanilla ice cream is used than all the other flavors combined.

Ohioans are ice cream eaters. The consumption of ice cream in the state last year increased 25 per cent over the consumption of 1923. Manufacturers declare that the consumption of ice cream increases as its food values become more generally recognized. It is believed that the reduction in flavors carried regularly in stock will work greatly to the advantage of the consumer.

It is an obstinate cold indeed that can resist this direct, double action, Vick's Vapor Steam.

If the air passages are badly stopped up, try the "teakettle and tent" method. This method—fully explained in the directions—consists, briefly of vaporizing Vick's in a teakettle and arranging a newspaper "tent" over the patient's head so that the combined warm steam and medicated vapors can be inhaled.

Mothers especially appreciate Vick's for the frequent colds of children, as it can be used freely and often, without disturbing the digestion—you "just rub it on." Over 21 million jars are used yearly.

Nothing Ever Lost

Elements which enter into the making of a soap-bubble film are as lasting as those which form granite rock; no material thing is ever lost or destroyed, says science. Man's immortality is fairly well assured both by science and the Bible. It was the Frenchman, Lavoisier, who first proved with his fine balance, that in all chemical operations it is only the kind of matter that is changed, the quantity remaining the same. This was the discovery of the conservation of matter to which knowledge of the conservation of energy has since been added.—Cincinnati Weekly.

Painful Joints

Every trace of tortuous joint pains—whether in ankle, knee, hip, elbow, shoulder, finger or wrist—vanishes almost instantly with a remarkable old Dutch remedy long known to physicians, not up in any to-be-forgotten corner. It sets at rest inflamed joints and removes. Ask for it at Mill Hartsen Oil. Costs only 25c, and results guaranteed or money back. All druggists.

Youth

Comes back to many in these gland days

Gland extracts now do countless things never done before. No medical discovery of modern times has meant so much to so many. One great gland treatment, ox gall for the liver. That is our most important gland. Probably more ill health comes from torpid liver than from any other cause. And more premature old age.

No drug stimulates the liver. None ever did. But science has found that ox gall does, and countless people are getting help which used to seem impossible.

What Torpid Liver Does
The liver should supply the intestines one quart of bile per day. When it doesn't things go wrong. One suffers indigestion, constipation, etc.

But bile, above all, combats intestinal germs. When it is scant those germs breed by millions. They feed the blood a constant flow of poison. Then comes all the results of impure blood.

Now a Quick Help
Now it is found that ox gall offers a quick help to many. It stimulates the liver. Often in 24 hours it brings results almost unbelievable.

Nothing else does for torpid livers what ox gall does today. Multitudes who read this can get benefit from it and some in a large way.

But get real ox gall. Be sure of that. The best is called Dioxol. Each tablet contains ten drops of purified ox gall.

Remember that name—Dioxol. Insist that your druggist supply it. Then watch what it does to bring back health, vigor and youth. Start today.

"Tip this advertisement. Take it to our specialist agent, The Leaky Drug Co., and they will give you a liberal sample of Dioxol free."

Hiram—Carl D. England, of Baldwin-Wallace college, won the state inter-collegiate oratorical contest here on the subject, "The Sentence of Life."

THE AMERICA OR WASHINGTON IN DANGER, HE SAYS

Philadelphia, Feb. 23.—The America of George Washington is in danger of an onslaught by radicals seeking "unbridled democracy," Secretary of State Kellogg told students of the University of Pennsylvania Monday. He denounced the principles espoused by progressives in and out of congress, emphasized the danger of concentration and extension of federal power, and warned against a rising tide of socialism and communism throughout the world.

"No one will deny that there are forces at work today in the world of which the ultimate object is the destruction of all such governments as this," Kellogg said.

"We have been passing through a period of agitation where all manner of changes and evolutions in our form of government are demanded, and where some quite radical changes are almost impudently taking place." Kellogg said that the foreign policies laid down by Washington were the foreign policies of his department today—"the policy of steering clear of permanent alliances with foreign powers."

STILLMAN TAKES FINANCIAL CARE OF YOUNG LEEDS

New York, Feb. 23.—William M. Sullivan, personal attorney for James A. Stillman, today admitted that before his departure for Europe Stillman, once head of the National City bank, had made substantial and permanent financial provision for Jay Leeds. The boy is the seven-year-old son of Stillman and Florence Lawlor Leeds, Sullivan admitted.

"An agreement was signed last November," Sullivan said, between Mr. Stillman and the boy's mother who has in late years been variously known as Mrs. Leeds and Mrs. Lincoln. The arrangement was voluntary on Mr. Stillman's part. Mrs. Leeds came on from Florida to sign the agreement but they did not meet."

Sullivan declined to state what specific provision had been made for the boy, but he did not deny reports that \$20,000 a year will be paid during Jay's minority and when he attains 21, he will receive \$150,000.

Marion Is "Pleased" With Critics Praise

New York Feb. 23.—Calmly eating breakfast in her modest apartment today Marion Talley the Kansas City song bird read the praise of the newspaper critics of her second performance at the Metropolitan opera house and said she was "pleased." More than 4,000 persons crowded into the big auditorium to hear Miss Talley sing "Lucia."

The 13-year-old Missouri girl too! 19 curtain calls. The critics appeared to think better of Miss Talley's voice than on the occasion of her debut.

Arrests May Follow Poison Investigation

Wheeling, W. Va., Feb. 23.—A special grand jury today is investigating the death of Nathan Bell in whose stomach was found "arsenic in sufficient quantities to kill 20 horses" according to George Coleman, a chemist.

A jury disagreed in circuit court yesterday as to the genuineness of the purported will of Bell under which Mrs. Jessie Hoge was bequeathed the dead man's \$100,000 estate.

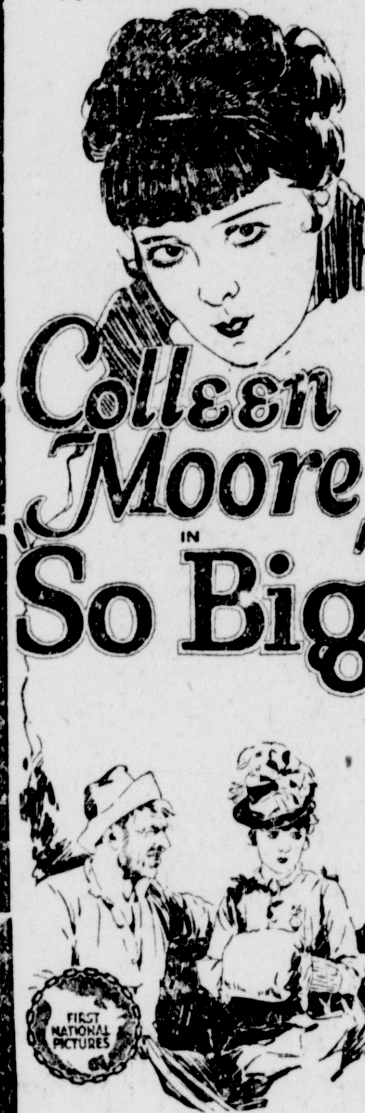

Following a contest of the will by three of Bell's brothers in Ireland, the body was exhumed and an analysis disclosed the presence of poison in the vital organs.

Prosecuting Attorney A. C. Schliffler said that arrests would probably follow the grand jury probe.

Red And Black Boys Defeat Lisbon 54-16 But Girls Lose 20-15

Riding roughshod over the Lisbon Boys, the Salem High Boys won an easy game, 54 to 16, while the Salem Girls lost a hot encounter to the Blue Girls, 20 to 15, in a holiday matinee bill Monday in the Salem gym.

In a preliminary the Salem Boys Revere walked away with the Rogers variety, 40 to 24.

The Girls game was a heartbreaker for the Red and Black and meant a happy day for Lisbon. Earlier in the season at Lisbon the Salem six won, 20 to 19, and Lisbon, out for revenge yesterday afternoon, came to the front in the last half and Salem's efforts to head off the Blue were unsuccessful.

Salem led at the quarter, 7 to 4 and the half 10 to 8. It was not a case of supremacy but Lisbon was just a little behind in general work, the score being a fair indication of the situation.

Lisbon, however, uncovered a big offensive punch in the final periods that the Salem forwards had at the backer were wasted. The pinch came in the last quarter, and Lisbon was more than equal to the occasion. Salem led, 14 to 12, at the end of the third period, but was slipping, and though both teams fought like the proverbial tigers in that nerve-racking final quarter Lisbon forged into a commanding lead.

Easy For Boys
The game got rough in the last half, and because both sextets played so fast, many fumbles occurred and spoiled teamwork. Older led the scoring for Salem and Armstrong for Lisbon. The Salem guards, as usual, played more superior ball than their opponents.

The Red and Black steam roller over Lisbon was an easy victim in the Lisbon Boys, and though the score was not quite as one-sided as the contest at Lisbon two months ago, still it smacked of the ultimate in decisiveness.

Lisbon's Boys held their own for about two minutes of play but their hopes sank in the opening stanza and only several minor flurries brought the score up to 16 for the entire game.

Playing without Older, who injured his ankle in the Alliance game, Capt. Charlie Coffey and his teammates took a lead of 14 to 4 at the first quarter, and though not working nearly as smoothly as in the Saturday night fracas, had a fairly well oiled machine.

At the half the Salem five was way out in front, 31 to 7, and then were rained on Lisbon from sub on. At the end of the third quarter the tally was but 39 to 11, Salem indulging in a little off shooting and resting in that period. The siesta was short ended, much to Lisbon's chagrin, for the adding machine was again pressed into service in the final quarter.

HELEN WILLS HAS CHANCE TO ANNEX MORE BIG HONORS

Monte Carlo, Feb. 23.—Helen Wills has a change to add more international laurels to her string of trophies for if she wins the Duke of Connaught gold cup in the tournament here it will be over the opposition of some of the best players that Europe can offer—barring the incomparable Suzanne.

Miss Wills is assured of an international final of great interest, with a semi-final almost as interesting. Fran Nollie Neppach, Germany's best woman player, is most likely to meet Miss Wills in the upper half of the draw, probably in the semi-finals. In the lower half of the draw there is an interesting struggle for the right to meet the California girl in the finals. Mlle. Contoslavsky, the Greek champion, Senorita Alvarez, the Spanish flash, and Mrs. Phyllis Satherwaite of England, are all well rated and one of these three is almost certain to reach the finals. Miss Wills has already defeated both Mlle. Contoslavsky and Mrs. Satherwaite and he fans would like to see her pitted against Senorita Alvarez.

BUILDING ARENA FOR TUNNEY AND STRIBLING BOUT

Miami, Fla., Feb. 22.—Work on the erection of the arena for the proposed bout between Gene Tunney and Young

Stribling here on March 12, was scheduled to begin today.

The arena, according to the promoter, Jess Baugh, will seat 30,000 and will be finished in ten days. Baugh plans to keep a force of 100 carpenters working in shifts.

Baugh said he looked for the bout to draw a \$300,000 gate.

COURSE IN GOLF IS POPULAR AT N. YORK COLLEGE

New York, Feb. 23.—A newly instituted course in golf has become so popular at the College of the City of New York, it was declared today, that many students have been refused admittance owing to lack of facilities. Hundreds of undergraduates already have been registered for the course, which is being conducted by Herman McCarthy, local professional. Two evenings of instruction are given each week through the winter and the remainder of the semester will be devoted to outdoor tuition at the Flatbush Golf club.

Columbia Is East's Basketball Leader

New York, Feb. 23.—Columbia university stood today as the virtual champion of the 1925-26 season in the Eastern Intercollegiate Basketball league by reason of its last-minute 32 to 30 victory over Dartmouth last night.

The standing today showed Columbia with six victories and no defeats. Dartmouth, Pennsylvania and Princeton being tied for second place with four victories and three defeats.

Cleveland Is Leader In American League

Cleveland, Feb. 23.—The Cleveland Rosenbergs today hold the undisputed lead in the American Basketball league after defeating Rochester 32-30. It was the club's sixth straight victory.

Pirates Go South

Pittsburg, Feb. 23.—The vanguard of the world champion Pittsburg Pirates, consisting of Manager Bill McKechnie, Secretary Sam Dreyfuss and a few rookie battery men, today was enroute to Paso Robles, Calif., to start spring training.

Last Night's Fights

At Brooklyn—Joe Glick, Brooklyn, knocked out Jack West, Atlantic City, tenth round; Jackie Snyder, Brooklyn got the decision over Lew Hurley, New York, ten rounds; Murray Gittitz, New Haven, Conn., got the decision over Jim Sigmund, New York, eight rounds.

At Philadelphia—Jack Delaney, Bridgeport, Conn., knocked out Quintin Romero Ropas, Chile, in fourth round of a scheduled ten round wind-up; Matt Adgie, Philadelphia, knocked out eddies Dougherty, Philadelphia, first round of a scheduled ten-round semi-final bout; Mex Wexler, New York, outpointed Marty Gold, Philadelphia, six rounds; Nick Quagrelli,

New York, gained the judge's decision over Jack Metz, Pittsburg, six rounds; Joe Durando, New York, defeated Marty Harris, Philadelphia, six rounds.

At McKeesport, Pa.—Cuddy Demarco, of Charleroi, Pa., outpointed Joey Silvers, of New York, in 10 rounds; Teddy Walsh, McKeesport, won from Joe Harris, Niles, Ohio, six rounds; Marty McHale, McKeesport, won from Ralph Matzo, Bloomfield, six rounds.

SUSPENDERS FOR SHIRTS WILL BE WORN BY CO-EDS

Columbus, Feb. 22.—A big bunch of holdups may soon appear on the campus of Ohio State university.

A good many co-eds are frankly worried.

You see, Dame Fashion, according

to advance notices, is planning to introduce a new spring tad—suspenders for skirts.

They are to wear the suspenders on the outside of white shirt waists in all colors of the rainbow.

Co-eds interviewed here seemed a bit skeptical about adopting the new and anti-gravity apparel.

You've got the goods, Prince Albert

DON'T I know? Didn't I cross the burning sands in search of pipe-contentment? And then you loomed up, like an oasis in the Desert of Doubt. Cool and refreshing, you were, Prince Albert. I'll never forget that first meeting.

Why, you just had everything I wanted in a pipe tobacco. You came zooming up the stem like a breeze through the date palms. You were fragrant as frankincense. You were friendly to my tongue and throat, refusing to mistreat them.

You're still sheik of the smoke-tribe, Prince Albert. I'm FOR you a hundred per cent. You and my trusty jimmy-pipe go with me everywhere, smoothing out the wrinkles in the roadway of life. The tongue you've been so kind to will always speak a good word in return.

Maybe there are some other chaps roaming the hot-pipe desert, at the mercy of the bedouins of bite and the pirates of parch. I hope they are listening in. I'm putting on all the power I've got to tell them what a lot of comfort is waiting for them in the tidy red tins marked "Prince Albert."

P.A. is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of bite and parch removed by the Prince Albert process.

COLLEEN AT GRAND
"So Big," starring Colleen Moore, opened at the Grand last night under the auspices of the Book club as a benefit for the club's new women's rest room. The story, adapted from the novel by Edna Ferber, is a delightful one and a far different role is given Miss Moore in this picture than the portrayal of flapper roles she usually has.

As Selma Peake De Jong, Colleen's roles in "So Big" covers the gamut of heartaches and sacrifices a mother makes in bringing her fledgling safely through to the harbor of manhood. These sacrifices are the structure by which the action of "So Big" is developed.

Supporting Miss Moore in her undertaking is a cast of character players of fine repute, such as John Bowers, Wallace Beery, Ford Sterling, Dot Farley, Jean Hersholt, Sam De Grasse, Gladys Brockwell, Rosemary Theby, Phyllis Haver, Charlotte Merriam, Henry Hebert, Baby Dorothy Brock and Frankie Darro. The part of her son is played by Ben Lyon.

AT THE STATE

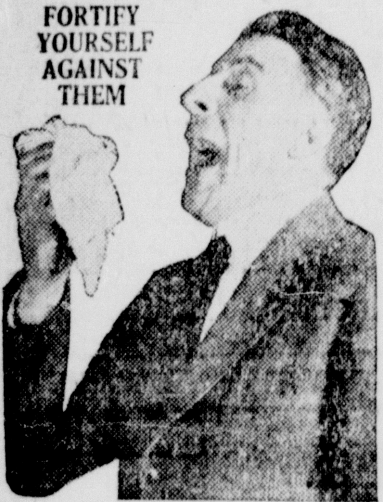

In the parlance of the movie studios, "Behind the Front," Paramount's comedy of the A. E. F., which opened at the State last night, is nothing short of a "wow."

"Behind the Front" is a mirror of the humorous side of soldiering in France. The story concerns a couple of dumb doughboys, played by Wallace Beery and Raymond Hatton, and their love affair with an exceptionally beautiful and vivacious girl, Mary Brian, who never appeared more alluring and charming than she does in a Red Cross worker's uniform in the picture.

While the Al Christie feature comedy, "Seven Days," which opens Wed-

How to Stop That Weakening Cough

Why let a heavy, stubborn cough weary you down when you can get speedy relief and often break it up completely in 24 hours through a remarkable new method based on the famous Dr. King's New Discovery for Coughs?

Here is the method: You simply take one teaspoonful and hold it in your throat for 15 or 20 seconds before swallowing it. It has a double action. It not only soothes and heals irritation, but also removes the phlegm and congestion which are the real cause of the coughing. So with the cause removed the worst cough soon disappears.

Dr. King's New Discovery is for coughs, chest colds, bronchitis, spasmodic croup, etc. Fine for children, too—no harmful drugs. Very economical, as the dose is only one teaspoonful. At all good druggists. Ask for

The bill of exceptions in the case of Clude and Sarah K. Lamorighi against the City of East Palestine has been approved by Judge John B. Worley of Harrison county, who presided at Lisbon at the time the case was tried, and the record has just been received by Clerk of Courts Frank Ballantine from the presiding court.

In this case the plaintiffs sought a damage from the municipality in that has been commonly termed a "sewer case" and the jury rendered a verdict in favor of the defendant corporation. Notice of appeal was given at the time the verdict was rendered by Attorney K. L. Coburn of Salem.

City Solicitor John E. Bauknecht of East Palestine and Attorney George T. Farrell of Lisbon represented the defendants during the trial of the case.

Woman Under Bond
Bertha Sittler entered a plea of not guilty to a charge of non-support of an indigent parent when she went before Judge Lodge Riddle and was placed under \$300 bond for the morning of March 2. The bond was signed by John C. Todd and Dallas C. Sittler.

The charge against Mrs. Sittler was preferred by Francis Harter, a son. The mother, Catherine Harter, is aged 83 years and is being supported by the son in a home at Columbiana.

Judgment For \$102
A judgment on the verdict has been rendered by Judge James G. Moore in the case of J. C. Bowman against J. M. Glazer, which is an action carried to common pleas on appeal from a justice of the peace court in East Liverpool Feb. 21 last year, and where a judgment was rendered in favor of the plaintiff for \$102.10 for tires sold and delivered. In addition to the judgment on the verdict the costs of the action are also taxed against the defendant.

Leave To File Answer
Judge James G. Moore has granted leave to W. R. Shockey to file an answer in the case pending in common pleas court against him, filed by Chy Slusser, a doctaher, to secure a judgment on a not for \$200. This action was placed on the appearance docket Dec. 3 last.

Awarded Piano
A jury of five men returned a verdict Saturday at Lisbon in favor of Earl C. Hogue against Sheriff George Wright, which was an action filed to determine the ownership of property upon which a levy had been made by the sheriff in aid of an execution.

In this case Mrs. Hogue claimed ownership of a piano that has been levied upon in the case of James R. Stevenson of Yellow Creek township against Earl Hogue. The property was awarded Mrs. Hogue by the jury and a value of \$75 was placed upon it by the jury.

Court Is Closed
All offices at the court house were closed Monday on account of the Washington birthday holiday. The usual routine of business will continue Tuesday.

The weekly meeting of the county commissioners will be held Tuesday, and court trials will be resumed in common pleas No. 2, with Judge Fred H. Wolf of Wauseon, presiding. Judge Wolf has been assigned to this county for three weeks and will remain four weeks, providing the court work in his home county will permit of his absence.

Accused of Robbery
Frank Kuzian, accused of robbing the home of R. A. Pow near Middleton two weeks ago of 90 head of Plymouth Rock chickens and a lot of other chatties, has been returned from St. Joseph, Mich., by Sheriff George Wright. Kuzian was arraigned at Lisbon Saturday and entered a plea of not guilty and held under \$5,000 bond for a hearing next Wednesday. In default of bail he was committed to the county jail.

The Ford automobile Kuzian is said to have been driving by Mr. Pow, was not located at Riverside, Mich., when Sheriff Wright and Merrian county (Mich.) authorities placed Kuzian under arrest.

Coming Home

After months of hunting in the wilds of India, Theodore Roosevelt and his brother, Kermit, are en route home with many trophies, including several rare specimens of the ovis pobi.

Daring Explorer Opens New Wilderness to Whites

George M. Dyott, noted English explorer and author, is back from a perilous trip through Ecuador and Brazil across South America, on which he visited regions never before seen by a white man. At bottom is the great volcano of Sangai, photographed for the first time. At top is one of the swift, deadly streams with which he had to continually battle. As the photo was taken, one of his boats was being smashed. Also shown is one of the savages who inhabit the wilderness opened by Dyott.

COOLIDGE INVITED TO POTTERS PICNIC

Potters of District Meet March 13 in Liverpool To Perfect Plans.

Sebring, Feb. 23.—Sebring potters will join delegates from other parts of the country in arranging plans for the annual picnic to be held at East Liverpool March 13.

Two delegates are to be selected from each of the two pottery unions here. "Sunny Jim" Turner of Sebring, is a member of the executive committee which decided to call the mass meeting to outline the additional plans for the outing.

President Calvin Coolidge has been extended an invitation to attend the affair. Pottery workers have secured cooperation of prominent organizations in the state and a large number of political leaders to have President Coolidge attend.

Believing that President and Mrs. Coolidge will be present, plans will be completed for greeting them when they arrive in this part of the state.

State Representative Ralph W. Emmons of East Rochester has been added to the committee to greet the president. Others on the committee include Senator Frank B. Willis and Congressman Frank Murphy of Steubenville.

This year the picnic is to be the largest ever staged by the National Brotherhood of Operative Potters. From all parts of the country potters are expected to come to Ohio for the outing.

MOTOR DRIVEN LINER STARTS MAIDEN VOYAGE

Southampton, Eng., Feb. 23.—The Asturias, the first large British high-speed motor driven ocean liner, makes her maiden voyage this week and sailing for South America.

The Asturias, belonging to the Royal Mail Steam Packet Co., has a gross tonnage of 22,500 and is driven by double acting Diesel engines and is the second passenger liner to be driven by this type of engine. The

first being the Swedish liner, Grips-holm. Two other British ships, the Alcantra and the Carnarvon Castle, are being fitted with similar engines.

Two Italian liners, the Saturnia and Urania, are being built at Trieste and will surpass the English ships in tonnage and power, having a tonnage of 23,500 and 24,000 horse power as compared to the 22,000 horsepower of the British ships.

Italy is also building the quadrupled screw Augustus, a vessel of 33,000 tons and motors developing 31,000 horsepower.

As the ground on which the City of Mexico stands was once the bed of a lake it is not considered safe to build skyscrapers in that city. The highest building there is seven stories.

Why Studebaker is the ideal car for winter driving

STUDEBAKER cars are built to operate unfailingly in all kinds of weather and in all climates. They are built to give you not only dependable starting, stopping and running, but warmth and comfort, so essential to the pleasure of winter driving.

Easy starting

Studebaker cars have, we believe, the largest hot spot of any car on the market—with an adjustment for temperature. A specially designed manifold distributes the gases uniformly to all six cylinders.

The carburetors used on Studebaker cars are the highest grade obtainable—specially adapted for use on Studebakers. They have been developed to the point where no adjustment is needed for winter conditions. It is seldom necessary to touch a Studebaker carburetor after it leaves the factory.

The compact Studebaker starting motor is the result of ten years' experience with the same motor. With a battery in average condition it never fails to turn over, even a Big Six motor in the coldest weather—because of perfectly worked out gear-reduction. The starting motor has a torque force of 200 pounds.

Force feed lubrication

Starting and running in extreme cold temperatures imposes severe strain on motors that are improperly oiled. Studebaker employs the force feed system which instantly sends a supply of oil to all bearing surfaces. Longer engine life and lower upkeep are the results.

Draft-proof construction

Doors and windows in Studebaker enclosed cars are constructed and fitted to the highest precision standards in the industry. Cold air and draft cannot leak through. Interiors are kept warm and comfortable as a result.

Windshield cleaner

In snow or rain vision is kept clear by the automatic windshield cleaner, which is standard equipment on every Studebaker.

Quick, safe stopping

Made possible by the soft, positive action of Studebaker brakes—which are built in Studebaker plants to Studebaker standards.

The exclusive Duplex feature

Only Studebaker builds the Duplex—a new type of open-closed car, convertible in 30 seconds without leaving the driver's seat. When drawn—the roller side enclosures provide complete protection from rain, snow, and cold winds.

Starting—running—or stopping—you will get real enjoyment out of winter driving if you drive a Studebaker.

This is the first posed photograph of the Salm baby, now fifteen months old. His father, Count Salm, is at Palm Beach to visit the boy, who is in the custody of his mother, the former Millicent Rogers. She one day will inherit her father's \$50,000,000 which in time will pass on to her son, Peter.

COLUMBIANA

A large audience was present Sunday evening at the Christian church for the opening service of a two-week evangelistic campaign. In charge of Rev. J. J. Tisdall, pastor of the First Christian church of Pittsburgh. The subject of Dr. Tisdall's first address was "The Challenge of the Cross." A special song service is held each evening with other added features.

The pastor, Rev. F. H. Gerrett has just completed a series of special services at the Phillips church, south of Salem, at which the results of the two weeks were very gratifying, 23 being received into membership of that church.

Sunday evening at the Presbyterian church the pastor, Rev. J. C. Struble, gave an illustrated talk concerning the American Indian and what the church is doing for him. About 70 colored slides were used in connection with the lecture. Wednesday evening, S. E. White, who has been a worker among the lumberjacks of the state of Washington, will tell of his work. It is hoped a large audience will listen to his message.

Next Sunday evening the long prepared for union evangelistic services will begin at the Grace Reformed church. The services will be held all week in this church, then at the Presbyterian church for the second week and ending at the Methodist church with the three pastors alternating in the sermons. A union choir will have charge of the special music. Cottage prayer meetings have been held the past two weeks at various homes of the three congregations to arouse and stimulate interest in the meetings.

Wednesday night one of the best basketball games of the season will be played at the C. H. S. auditorium, when the Miller Brothers' team, after a ten day vacation, appears against the Duquesne club of Youngstown, and will endeavor to get revenge for their six point defeat of two weeks ago.

Relatives here have received word of the birth of a daughter to Mr. and Mrs. Harry Hisey of Salem. Mr. Hisey is a son of Mr. and Mrs. Harvey Hisey Union st. Columbiana.

The King's Daughters class of

Grace Reformed Sunday school will have charge of a social at the church Tuesday evening, to which all members and friends of the church and Sunday school are invited.

YOUTHS FORSAKE SLEDS, SKATES TO CHASE OUT RATS

Rhineland, Wis., Feb. 22.—Marbles, sleds, skates, kite-flying and the rest of juvenile pastimes—outdoor and indoor—are forsaken in this town while the boys are busy hunting rats. It is no uncommon sight to see Willie and the "gang" stalking their quarry in barn lofts, cellars, and any other place where the rodent may be found, to be hastily dispatched and amputated from his tail.

The reason? Since the manager of the local moving picture house nearly lost his theater by fire, which threatened, for a time, the entire town, through the activities of the match nibbling animals, he has offered an admission ticket for every five rat tails brought to him.

The congress of the United States has passed a total of more than 50,000 laws.

WILL JIM OR MA MAKE NEW FIGHT?

Texas Situation Agitated By Doubt As to Which Will Be Candidate

Austin, Texas, Feb. 23. — Jim or Ma?

That is one of the questions that now is agitating Texas political circles, for as yet no authoritative announcement has been made as to the future political ideas of Gov. Miriam Ferguson and her ex-governor husband, James E. Ferguson. It is generally conceded, however, that either Jim, or his wife will make the race for governor and that Dan Moody, youthful attorney-general also will make the campaign in opposition to the Ferguson camp.

At the present time Moody and the Fergusons are the leading figures. Lynch Davidson also is considered a potential candidate, but those who are backing Moody, are hopeful that Davidson will keep on the sidelines. A third candidate, they say, would cut Moody's chances.

Such is the present status of affairs, with voters lining up for their respective favorites and the favorites as yet silent as to whether or not they will run.

Some time ago, Jim Ferguson stated that if his wife's administration were attacked re-election would be sought. Mrs. Ferguson has been attacked on all sides for her administration, even to the circulation of

petitions, calling for an "impeachment session."

Mrs. Ferguson, when she left her home in Temple two years ago to stamp the state in order to vindicate the name of her husband, whose citizenship rights were taken from him when he was impeached while governor of the state, and who, therefore, could not vindicate himself, stated she wanted only one term.

Under her administration the amnesty bill—restoring the citizenship rights of her husband—was passed. Later this law was declared unconstitutional by Dan Moody. It has never been tested and should Ferguson wait until June to file for office there would not be sufficient time to test it before the election. It is contended.

As to Moody there seems to be some doubt. He never has stated he will be a candidate for governor. Neither has he said he will not be. In the meantime he has started the highway controversy, instituted suits against highway concerns and to date secured a return to the state of \$600,000 from a highway concern.

That the Klan issue will play a

big part in the campaign—just as it did in 1924—seems certain but it what way is not so well defined.

The Fergusons are the undying enemies of the Klan. They were in the last campaign and now with another election approaching, Ferguson is charging the Klan with being back of the Moody move.

It was on the reputation Moody made for fighting the Klan that he went into office. Moody prosecuted members of the Klan for whipping a man at Burleson. Five were sent to the penitentiary. Since he has been in office he has been outspoken against the hooded order. Recently, at a meeting in Houston, Moody found himself called upon to speak from the same platform with a representative of the Ku Klux Klan.

His stand on the Klan he said, was

well known, that secret political orders were a menace to the state and nation, he said, was his opinion; the law, he opined, should be enforced from the offices of prosecuting attorneys and not the council halls of secret organizations. Then he went on with his speech.

Film Stars Answer Query Raised by "Eve's Two Lovers"

Do women want to dominate or be dominated in marriage? Do they want a weak husband or a strong one? Film stars, answering the queries raised by "Eve's Two Lovers," new romance by Edgar Poe Norris now appearing in this paper, can't agree. Colleen Moore, whose husband is John McCormick, film maker, welcomes "reasonable control." Anna Q. Nilsson, a divorcee, advocates woman as the "governing force." Lewis Stone thinks many women welcome domination. A wife should cater to her husband's wishes, Lloyd Hughes says. "Rule within reason," is a right of every husband, Jack Mulhall contends. Mary Astor is inclined to believe domination doesn't hurt women. Where there's romance domination is excusable, avers Dolores Del Rio, who is very much married. Dick Barthelmess thinks the husband ought to have the right to "suggest" things.

TODAY'S RECIPES

Baked Apple Pie—Butter a glass baking dish and slice apples as for pie, putting a layer of apples, sprinkled with sugar, in the bottom of the dish, then another layer of apples and sugar until the dish is filled. Dot the top with small pieces of butter and sprinkle with nutmeg or cinnamon. Bake in a moderate oven. A convalescent also may find this dish appetizing.

Steak and Onions—Purchase a full cut of round steak two inches thick. Put in roaster, dot over with chopped suet, and roast in a very hot oven 30 minutes. Lower the heat, salt and pepper the meat and cook slowly one and one-half to two hours longer. Prepare four or five large Spanish onions by slicing into cold water. One hour before the meat is to be

served, drain onions and boil in salted water 10 minutes. Drain. Remove cover from roaster, spread onions over the meat, and sprinkle with chopped suet which has been slightly browned in skillet. Cook one-half hour longer, without cover, till suet is well browned and onions seasoned with the fat.

Fig Delight—One-half cup graham flour, two cups boiling water, one half pound chopped figs, pinch of salt, one-half cup sugar, one-half cup chopped walnuts. Make smooth paste of graham flour and boiling water. Cook five minutes. Stir while cooking. Add sugar, salt and figs. Cook in top of double boiler one hour, when cold add nuts. Serve with plain or whipped cream. Garnish with one half walnut and red or green cherry.

How to Remove 88 Kinds of Stains

Perhaps you do not realize how many different kinds of stains can disfigure people's clothes. It is almost impossible for anyone to escape having food stains on clothing at some time or other. What would you do if you upset the ink bottle on an expensive table cover, medicine on your best suit, ruined a gown with paint stains, or scorched the newest linen tablecloth? All of these things happen every day. But there is a remedy for every blemish you may get on your clothing and household linens.

These are all listed in a 36-page booklet with illustrations, which this bureau has for free distribution. Fill out the attached coupon and enclose two cents in stamps for return postage. Write your name and address clearly.

Woman In Parliament Asks People to Take Her Party Seriously

LONDON, Feb. 23.—Ellen Wilkinson, the red-haired Laborite member of the house of commons is distressed because people won't take the Labor party seriously.

Miss Wilkinson was trying to address a Labor meeting at Leeds, when the lights on the platform fell.

HEAL SKIN DISEASES

Apply Zemo, Clean, Penetrating, Antiseptic Liquid

It is unnecessary for you to suffer with Eczema, Itches, Ringworm, Rashes and similar skin troubles. Zemo will usually give instant relief from itching torture. It cleanses and soothes the skin and heals quickly and effectively most skin diseases.

Zemo is a wonderful, penetrating, disappearing liquid and is soothing to the most delicate skin. It is recommended for daytime use because it doesn't show. Get it today from any drugist. Small size 60c or large bottle \$1.00.

ed. The audience snickered, laughed, shouted and found more enjoyment in the speaker's evident distress than it did in the "message" promised them.

Miss Wilkinson's complexion became the color of her flaming hair. "There's no need to laugh just because a light goes out," she declared. "I've come here with a tremendous message and you must listen to me. Don't you realize what I am trying to tell you? I have not come here to amuse you. For heaven's sake, take our Labor movement seriously—not as a diversion between football and the movies."

Beauty Held in Fake Holdup Death Plot Aimed at Husband

Central Press Photos

Charges of conspiracy with intent to kill hang over Mrs. Albertina Frank, 24, and Carl B. Davis, who are held by Kansas City police. It is alleged that Mrs. Frank plotted with Davis to murder her husband in a fake hold-up. A slip-up caused the plot to be frustrated. Both have confessed, police aver. Mrs. Frank and Davis are shown.

RUM RING PROBE UNDER WAY AGAIN

Cleveland, Feb. 23.—The government's wide-flung probe into the alleged \$140,000,000 nationwide rum ring was in full swing here again today as the federal grand jury re-assembled and prepared to quiz more than one hundred additional witnesses from all sections of the United States.

The jury will hold day and night sessions until the investigation is completed.

United States District Attorney A. E. Bernstein, guiding hand of the probe, who left the city Friday night to draw up the first indictments in connection with the case, was back in the city today. Whether a series of arrests here and in other cities will follow today was not known definitely but rumors to that effect were current.

There were unverified reports that the first indictment, one of the longest ever to be returned here, would name more than 100 persons in various parts of the country. Forty-three persons have already been taken into custody in connection with the case since the probe began.

The jury has already heard testimony that showed the huge rum syndicate operated in Minneapolis, St. Paul, Philadelphia, Cleveland, Chicago, Baltimore, Duluth, Atlantic City, New Orleans and other cities.

LEETONIA

Of the \$219,999 distributed to the schools of Columbiana county from taxes, the Leetonia school district has received \$10,999. The final settlements will be made about March 1.

Wednesday evening, Feb. 24, Leetonia residents will have the opportunity to see the celebrated historical and educational picture, "Martin Luther, His Life and Times," in St. Paul's Lutheran chapel. The picture is a classic eight reel moving picture and represents the most significant events of this great reformer's life. This wonderful picture is shown under the auspices of the "L. F. Mellinger" Sunday school class.

Some change has been made in the meetings held during the Lenten week of prayer and self denial by the Women's Missionary society of St. Paul's Lutheran church.

Tuesday afternoon the meeting will be held at the home of Mrs. W. S. Gruber, 465 Columbia st., with Mrs. Elmer Harold, leader. Thursday afternoon at the home of Mrs. William Penstemaker, 116 Lisbon st., with Mrs. Anna Thrasher, leader, and on Friday afternoon at the home of Mrs. H. C. Sour Stomach

"Phillips Milk of Magnesia"
Better than Soda

Instead of soda hereafter take a little "Phillips Milk of Magnesia" in water any time for indigestion, or sour, acid, gassy stomach, and relief will come instantly.

For fifty years genuine "Phillips Milk of Magnesia" has been prescribed by physicians because it overcomes three times as much acid in the stomach as a saturated solution of bicarbonate of soda, leaving the stomach sweet and free from all gases. It neutralizes acid fermentations in the bowels and gently urges the souring waste from the system without purging. Besides, it is more pleasant to take than soda. Insist upon "Phillips." Twenty-five cent bottles, any drugstore. Adv

Lisbon News Notes

Fire in Livingston Home
Quick work extinguished a fire which was discovered burning in a wastebasket in the Livingston home in West Lincoln way prevented serious damage to the property. The waste basket caught fire in some mysterious manner and when Mrs. Livingston entered the kitchen of her home the window blind was on fire and also the window sash. She extinguished the fire herself, and no alarm was sent in for the Lisbon fire department.

Minstrel Show
The annual minstrel show of the Lisbon Kiwanis club will open in the Lisbon Opera House Tuesday night and will be repeated also Wednesday evening. The Rev. P. W. Macaulay will be the interlocutor while the end men will be the Rev. J. M. Cameron and Ross W. Firestone. W. A. Frow, Probate Judge Lodge Riddle, Deputy Sheriff James Elliott and George B. Wisden.

It is proposed by the Kiwanis club to spend the net receipts for civic betterments and the suggestion has been advanced that this year the sur-

plus from the show be used for establishing a public play ground for children.

Read Bible Daily
At the suggestion of their pastor, Rev. R. J. Bennett of the Lisbon Christian church, members have been reading the Book of Acts this month. There are 28 chapters in Acts, and a chapter was to be read daily during the 28 days of the month. This is the first time that such a suggestion has been made to a congregation in Lisbon. It is said, whereby by reading a chapter in the Bible a day an entire study could be completed within one month.

New York—Archbishop Edward A. Mooney of Youngstown, O., upon whom Pope Pius XI recently conferred the singular honor of appointment as apostolic delegate to India, returned from Rome to spend a month with his mother and Ohio friends before taking up his new duties next spring among the Catholics of England's far eastern possessions.

Albany, N. Y.—Scantiness of women's clothes has put such a crimp in the profits of transferring baggage in

New York City that several companies are seeking to increase their rates.

Iron with Cod Liver Oil Makes Weak Child Strong

New Easy-to-Take Tablet Form Builds Him Up Quickly

When your child "outgrows his strength" or is weakened by illness he should be given remedies known as "food tonics" to rebuild solid flesh and produce rich red blood. For this purpose, physicians prescribe cod liver oil and iron.

Chemists now extract the vitamins and flesh-building elements from cod liver oil and throw the nasty, useless oil away. They combine these extracts with blood-building iron in easy-to-take tablet form.

To get the genuine, specify Burke's Cod Liver Oil and Iron Tablets at the drug store. You'll soon have cause to be proud of the sturdy, energetic, well-nourished condition of your youngster.

SNIPER ADMITS OMAHA KILLINGS

Man Under Arrest Says He Had Grudge Against One of Victims

Omaha, Neb., Feb. 23.—A man who admitted, police say, being the sniper who shot and killed Dr. A. A. Searles and perhaps mortally wounded Ross Johnston, Wabash railroad agent, in the Council Bluffs, Ia., railroad yards, Friday, was captured Monday on the Burlington railroad tracks five miles north of Bartlett, Ia., 30 miles south-east of Omaha.

When arrested the man was armed with a Reising automatic, which police say was used in all the shootings in Omaha. The man arrested gave his name as Carter but refused to reveal his first name or his home. He also refused to discuss the murder of W. L. McDewitt, the first man to be killed by the sniper on Feb. 1.

"Carter" was first seen near Bartlett by C. C. Bruce, who from descriptions printed recognized him as resembling the "sniper." Bruce turned him over to Constable Dave Morgan. "Carter" told that he had a grudge against Dr. Searles because he had beaten him out of some money a few

years back when he had been treated for a social disease. He said, according to police, he shot Johnston, the railroad agent, because he thought Johnston was going to capture him.

Builds up weak bodies

"Stomach troubles, loss of appetite, and that rundown feeling almost made a wreck of me. I started a great comeback after taking Tanlac. It's the surest way to good health I know." Leslie Jones, 158 Fulton Street, Akron, Ohio.

From Mother Nature's storehouse we have gathered the roots, barks and herbs which are compounded, under the famous Tanlac formula, to make Tanlac.

If your body is weak and under-nourished, if you can't sleep or eat, have stomach trouble or burning rheumatism, just you see how quickly Tanlac can help you back to health and strength.

Don't delay taking Tanlac another day. Stop at your druggist's now and get a bottle of this, the greatest of all tonics. Take Tanlac Vegetable Pills for constipation.

A Great Year ~ A Great Car ~ and Lower Prices

1925 was the greatest year in Dodge Brothers history.

More than a quarter of a million Dodge Brothers Motor Cars were built and sold, yet demand was far in excess of production—and continues to mount.

To meet this world-wide need for a smart and dependable motor car, Dodge Brothers, Inc. have recently completed a \$10,000,000 program of expansion, vastly increasing production and lowering the cost of manufacture.

Remarkable new machine equipment has also been installed—further reducing costs and perfecting quality.

As a result Dodge Brothers, Inc. were enabled on January 7th, to announce a schedule of prices that has revolutionized all previous standards of motor car value.

Prices all the more impressive because they apply to a dependable and trusted product made still better in many vital respects—

Engine operation incredibly smooth and quiet.

Instant engine response and elasticity.

Stylish new bodies finished in rich and distinctive colors.

Exceptional driving vision.

And the most important advance in steel body construction since Dodge Brothers pioneered in building the first all-steel body.
